

**MAKE A SHIPMENT SAVE-A-VET:
ARL NETWORK FORMS STRATEGIC PARTNERSHIP WITH PAWS AND STRIPES**

Moon Township, PA, November, 2016: ARL Network, a logistics provider based just outside Pittsburgh, PA is proud to announce that it has teamed up with Paws and Stripes, a nonprofit organization that pairs veterans diagnosed with post-traumatic stress disorder and brain injuries with shelter dogs to train as their service animals.

From Veterans Day 2016 and running through Veterans Day 2017, ARL is running its, “Make a Shipment Save a Vet” program where it has pledged to make a monetary donation to Paws and Stripes to help the veterans and the service dogs in their program. ARL also welcomes any of its customers to help support the organization and make contributing donations of their own.

“Our Veterans give such a big sacrifice by protecting and serving us and we felt this was our opportunity to help serve them,” said Ron Faherty, President of ARL Network. “Along with providing an important support network for our Veterans, the program helps to keep a dog out of a shelter at the same time. We are proud to support this program and give back where we can.”

Since 2010, Paws and Stripes has provided services to almost 200 individuals and provided forever homes for well over 100 shelter dogs. With continued support, Paws and Stripes expect this number to continue to grow and reach more Veterans.
