du propane

---

Dear PTI Trainers,

As of December 1, 2019, the License Agreements with FSN Training & Development (ON) and TeamWorks Solutions (BC) are no longer in effect. Effective January 1, 2020 the License Agreements with AQP (QC) and CHEMSafety (Alberta) will also be concluded.

We take this opportunity to thank our long-standing partners for their hard work, dedication and support to developing a culture of safety in our industry.

As of today, we invite all trainers from Ontario, BC and Atlantic Canada to purchase required PTI training materials **directly** from the Canadian Propane Association/Propane Training Institute.

Trainers in Alberta, Saskatchewan, Manitoba and Québec will be able to purchase directly from us as of January 1, 2020.

[Please click here to view the \*\*pricing list\*\* related to training materials applicable to each course offering.](#)

**PTI material** gives you access to close to 30 bilingual training programs dedicated to offering the best in competency-focused programs to assist the propane industry in ensuring employees are ready to work safely and effectively.

With this step now complete, we look forward to sharing with you our online purchasing capabilities and online certification services demonstrating our leadership in training solutions that meet your requirements.

In today's highly competitive environment and as part of our expanded service offerings, we want to ensure that we meet and exceed your expectations when it comes to propane training.

To purchase directly from the Canadian Propane Association or if you have any questions please contact [training@propane.ca](mailto:training@propane.ca) or call toll free 1-877-784-4636.

**Please note that our offices will be closed December 23 and will re-open January 6, 2020. If you will require training material before the New Year, contact us as soon as possible.**

Happy Holidays!
