

Houston

AEC TECHNOLOGY EXPO

presented by

Document Solutions®

Learn how the construction industry here in Houston and across the country is using our technologies to finish their projects ahead of schedule and under budget.

Free Food, Drinks, and Product Demonstrations

Managed Print Services (MPS)

- Optimize your print infrastructure with a scalable, monitored solution for document control and comprehensive print cost recovery.

Archiving and Information Management (AIM)

- Convert your stored paper documents into a word searchable cloud archive with mobile accessibility.

Hyperlinking Services

- Link PDF documents of all kinds to save your team hours of time searching through files and folders.

SKYSITE™

- Ensure your teams are always working from the latest set with this powerful file sharing, document distribution, and project collaboration app.

Building Information Modeling (BIM)

- Let ARC support your BIM project requirements from Project Constructability Modeling to Facility Operations Modeling.

Visual Environments

- See how our visual communications experts can work with you to translate your message into dazzling color on high-quality materials.
