**Jointly Sponsored by  
Georgia Department of Transportation  
Technology Transfer Center and  
Federal Highway Administration**

## Objectives

The traffic control devices (TCD) are very critical for the safe and efficient transportation of people and goods. The Manual on Uniform Traffic Control Devices (MUTCD) contains national standards governing all traffic control devices by setting minimum standards and providing guidance. All public agencies and owners of private roads open to public travel rely on the MUTCD to bring uniformity. The use of uniform TCDs helps reduce crashes and congestion, and improves the efficiency of the transportation system. This course is designed to highlight some of the revisions contained in the MUTCD 2009 edition.

## Registration

Please register in advance on-line at:  
<http://wecs.dot.ga.gov/Login.cfm>

There is no registration fee for this program

\* Each county and city attending will receive one MUTCD 2009 edition per agency.
