

AQUALINE INSURANCE

Swimming Pool Builders and Service Contractors

Pool Pop Up Coverage

Does your current General Liability policy cover “Pool Pop Up”? Probably not. The thought of something as heavy as a swimming pool popping out of the ground is hard to conceive, but it happens more often than one might believe. The effect of hydrostatic pressure is not unusual.

Your customer’s homeowner policy more than likely has an Exclusion for this type of event. The homeowner will be relying on you for protection.

Don’t be left holding the bag.

We can help.
