

RELEASE ON NOVEMBER 1, 2023

FLO and Mac's II Agencies announce a strategic partnership.

British Columbia, Canada / November 1st, 2023. FLO and Mac's II Agencies are pleased to announce that they have entered a strategic partnership, combining FLO's leading EV charging products with Mac's II Agencies electrical consulting services.

This pivotal partnership signifies the upcoming growth within the commercial electrical vehicle (EV) charging landscape across the entire province of British Columbia. [FLO](#), a leading Canadian manufacturer of EV charging network operators, unites with [Mac's II Agencies](#), a prominent full-service electrical, lighting and power transformation solution provider for consultants throughout BC. This new alliance strengthens the available resources and support for both existing and future customers.

"We're excited to announce our partnership with the leader in EV Charging — FLO." **said Andrew Wallace, Electrical Division Sales Manager at Mac's II Agencies.** "Together, we're able to provide a complete suite of EV charging solutions for developers, contractors, distributors, and end users across British Columbia. With FLO's vertically integrated manufacturing, their products are engineered to withstand the elements, making them the perfect EV solution for all corners of the province."

From retail and hospitality sectors to cities and municipalities; specifiers and end users will have greater access to the latest in EV charging technology through Mac's II Agencies distributors.

Existing customers of FLO will continue to have their reliable customer service support, but can depend on Mac's II Agencies specialists for warranty claims, upgrades and new EV charging products.
