Home health providers are currently facing unprecedented challenges, with devastating payment cuts, attention to the Medicare hospice benefit like never before, and ongoing inadequacies in Medicaid HCBS rates.

Additionally, CMS is proposing new, potentially unworkable compensation requirements. These issues are critical, and our community needs robust policy support to address them effectively.

In light of this urgency, we invite you to **join us in Washington, DC, on Wednesday, April 17, 2024**, for a day of advocacy on Capitol Hill. Together, we will meet with our members of Congress to urge them to take action on these vital matters.

Your participation is essential in making our voices heard and ensuring that our concerns are addressed. Don't miss this opportunity to advocate for the future of care-in-the-home providers and the individuals they serve.
