Jane Panneton, Corcoran Consulting Group, JP@corcoranconsultants.com

**Corcoran Consulting Group welcomes Jane Panneton
as Managing Consultant**

North Haven, Conn., June 24, 2024 – [Corcoran Consulting Group LLC](#) is pleased to welcome Jane Panneton, a 27-year healthcare industry veteran, as Managing Consultant. Panneton works closely with Corcoran’s home care clients to improve their financial competency, create strategic exit plans, and provide sell-side guidance in mergers & acquisitions.

Panneton began her career as a financial analyst with Quest Diagnostics, progressing to revenue operations manager. Growing up, she witnessed the substandard care of an older family member in a facility setting. This experience fueled her deep desire to provide better home-based solutions to people as they age. In 2007, she purchased territory rights to operate a non-medical home care franchise in the Greater Philadelphia area, which received Franchise of The Year and Award of Excellence recognitions.

Panneton sold the agency in 2018 and transitioned to consulting. Having walked in their shoes, Panneton is passionate about helping home care entrepreneurs grow, expand, or exit successfully to the next chapter in their journey.

Panneton received her bachelor's degree in business communications and a certificate in financial accounting, business analytics, and economics for managers from Harvard Business School Online. She resides in Newport Center, Vermont.

About Corcoran Consulting Group

Corcoran Consulting Group provides operational, clinical, quality, and financial solutions and support to home health, hospice, and private duty home care agencies. Led by industry veterans with decades of experience in home care management, the Corcoran team collaborates closely with clients to enhance financial proficiency, define and attain quality benchmarks, improve operational and clinical compliance, and explore strategic options such as mergers and acquisitions. The company offers flexible, project-based arrangements that equip home health, home care, and hospice organizations with the knowledge and tools to embrace best practices.
