

FOR IMMEDIATE RELEASE

At 360 Athletics, we are passionate about providing the best fitness & recovery options for everybody. Which is why we are excited to introduce you to The Healing Movement for pet recovery.

Your pet's journey to recovery starts here.

At The Healing Movement, our mission is to educate and provide access to therapeutic solutions for pets. We view pets as family members. Our goal is to help people provide the same quality of care for their pets as they would receive during recovery and rehabilitation. With best-in-class science and

technology combined with our rental model, pet owners can now access this care affordably in the comfort of their own home.

Recovery Bed

Heal. Recover. Restore.

Light Therapy

Accelerate Healing.

PEMF Therapy

The Power of Magnets.

Recovery Bed

Our orthopaedic dog beds are meticulously designed to provide unparalleled support and comfort for pets in recovery. The bed features 3 layers of foam to provide the foundation and support that contour to your dog's body, alleviating pressure on joints and promoting optimal alignment. Ideal for pets with arthritis, hip dysplasia, or recovering from surgery, our orthopaedic dog beds ensure a restful and therapeutic sleep experience. The innovative design not only enhances mobility and overall well-being but also helps prevent future health issues by offering consistent, durable support. Give your beloved pet the care they deserve with our state-of-the-art orthopaedic dog beds, where health meets comfort.

Light Therapy

Red light therapy offers a non-invasive, natural solution to alleviate pain and accelerate healing in dogs. This advanced technology uses red and near-infrared light to penetrate deep into tissues, stimulating cellular repair, reducing inflammation, and improving blood circulation. Ideal for treating conditions such as arthritis, joint pain, and post-surgical recovery, our red-light therapy devices provide a safe and effective way to support your pet's health and well-being. Experience the transformative benefits of red-light therapy, ensuring your beloved companion recovers faster!

PEMF Therapy

PEMF (Pulsed Electromagnetic Field) therapy is highly beneficial for your pets as it stimulates cellular repair and regeneration by enhancing blood circulation and oxygenation at the cellular level. This non-invasive treatment will also help reduce inflammation, alleviate pain, and accelerate the healing process. By promoting faster recovery and improving overall mobility, PEMF therapy supports a better quality of life for dogs, ensuring they remain active and comfortable.

With convenient rental options available, The Healing Movement makes it easier for you to provide your beloved companion with the best care possible. For more information on how our innovative solutions can benefit your pet, please reach out to us today. We're here to help your furry friend achieve a healthier, happier life.
