

APOGEE SPORTS

Who we are...

Apogee is a Canadian company founded in 1998 which is dedicated to the manufacture of sports clothing and accessories. We offer products with a unique, typically Canadian look, using high quality fabrics made by the best mills in the world.

Since the company's creation in 1998, Apogee has quickly become a key player in the cycling, running, triathlon, cross-country skiing, and downhill skiing communities in Canada and around the world. We are constantly innovating to offer products with a unique design, high quality manufacturing, lifetime warranty and entirely thought out, designed, and developed in Canada.

We evolve in close collaboration with the sports elite athletes to remain one of the leaders in our industry. That is why we manufacture our own fabrics according to our own specifications with the collaboration of companies that respect the objectives set by the highest environmental standards in the world and we are committed to reducing our impact to offer sustainable products and recycled fabrics. We believe that our way of life will educate future generations.

Our mission is to manufacture high quality clothing and develop strong and long-term partnership with Canadian retailers. We have many custom clothing programs that we built specifically for each partner, that is why we become a solution when time comes to identify the needs of each retailer. We offer high technically fashion collections intended for amateur and professional athletes at very competitive prices and conditions.

We are now looking for sales agent and sales agencies interested to work with key retailers as well as the large team and club community in Canada. We are offering excellent conditions and more. This is a major opportunity for the people that can look ahead.
