

Teacher Offer: Use SparkPath's LifeDesign Workbook with your students

We're looking for teachers that would like to use a new career resource in their classrooms to bring the Challenge mindset to life beyond the Challenge Card sort.

Why a workbook? Many teachers ask us for more resources to guide their students with the Challenge mindset. They want to know:

- How can I prepare and motivate students, before the Challenge Card sort?
- How can I help students make sense of their choice of Challenge Cards?
- How can I guide them to use their top Challenge Cards to explore potential career and exploration paths?

Over the last few years, **we've collected best practices** on how to answer all these questions and more. We've compiled them in a new resource for students called the **LifeDesign Workbook**.

This Fall, we are looking for 5 teachers/classrooms to experience the LifeDesign Workbook.

Participating classrooms will **help students**:

1. Explore challenges they want to solve, and career and education paths available to them.
2. Connect what they are learning in the curriculum with the world of work.
3. Get excited about their present and future.

To participate, **teachers** commit to:

- Participate in a 30 minute “launch call” with other teachers
- Facilitate completion of the LifeDesign Workbook over the course of approximately 2 weeks
- Get students to complete a feedback survey at the end of the process

In exchange for participation, teachers **receive**:

- A LifeDesign Workbook for each of their students
- 1-year of free Digital access to Challenge Cards
- A \$100 Amazon gift card to thank you for your participation and feedback

Note: This curriculum can be delivered as part of GLC20 or any other class. A curriculum alignment map, based on the course, will be provided to any teacher who participates.

To get started:

Email JP Michel (jp@mysparkpath.com): “I’m in”.
